

getting your TRS statement has never been faster!

Get your Annual Membership Statement before everyone else!

The TRS 2007 Annual Membership Statements will begin shipping to employers in mid-October, but you have the opportunity to receive yours faster and easier this year. Your employer has agreed to pilot our online-only delivery system that will make providing you with the valuable information contained in your statement faster, friendlier, and easier. Instead of waiting for your statement to arrive via interoffice mail sometime in late October or November, you can simply log in to your online TRS account and view and print your statement.

TRS will notify you through your employer as to the release date, but

we are targeting online availability by early October. No waiting! As soon as your statement is available online, you will have access to it!

If you have not signed up for an account, we encourage you to do so prior to October so you can start taking advantage of the online opportunities TRS provides our members, including viewing last year's statement! Obtaining an account is as easy as 1, 2, 3!

Thank you for your partnership and for the opportunity to serve you. We will be in touch shortly!
